Notice

COMPETITION- BEST OUT OF WASTE

We are happy to inform you that college is conducting BEST OUT OF WASTE COMPETITION. The 'main purpose' of this is acquainting students with love for nature and responsibility to protect it. All the HODs are requested to encourage their students to participate by helping them in creating and designing something new from the waste materials. Students may use waste material available in the campus with prior permission of HOD, for general operations equipment and tools are available in Mechanical workshop such as, welding machine, cutter, drill etc. Students may need to arrange consumable and decorative items likes paint, card-sheet, taps etc. by themselves and some of the financial support will be provided by TEQIP-III. All the students are requested to register them with a maximum team size of 4 students on following google form and may work in their concern labs or project lab of mechanical workshop. All the entries will be judged and the best will be awarded during TechFest2020.
